# THE SOUL OF A LEADER

In twenty-first century Western culture, leaders are rewarded for their drive, decisiveness, productivity and long work hours. What would it mean for a leader to cultivate the inner life, to step off the treadmill, to take time apart for personal reflection? What would leadership arising from a core of spiritual groundedness and compassion look like?

This will be an experiential workshop, in which participants' own leadership experiences will serve as the basis for reflection and discernment. Insights from the fields of spirituality, management and leadership studies will be combined to consider leadership in a wide range of settings. This workshop is for anyone wishing to deepen his or her leadership capacity in business, in the church, in the voluntary sector, in the family, in health care or in other settings.
