

The Soul of Leadership

In twenty-first century Western culture, leaders are rewarded for their drive, decisiveness, productivity, and long work hours. But what happens when the day-to-day challenges of work life, the temptation to cut corners or let go of your vision, threaten your wellbeing and the health of the organization you lead? Whether you're an executive, a manager, a teacher, a committee chair, or a parent, this talk will focus on real-life stories and practical advice that will help you navigate the path of soulful leadership and persevere through setbacks and success.
